Six-month interim period ended May 31, 2002

4. Share capital, continued

The preferred shares may be issued in one or more series and the directors are authorized to fix the number of shares in each series and to determine the designation, rights, privileges, restrictions and conditions attached to the shares of each series.

The Corporation has established The Corporation's Stock Option Plan. To this plan, the Corporation has reserved a number of common shares equal to 10 percent of the shares issued and outstanding from time to time. The plan provides that the terms of the option and option price shall be fixed by the directors, subject to the price restrictions and other requirements imposed by the Alberta Stock Exchange ("ASE"). On November 29, 1999 the ASE became the Canadian Venture Exchange, which later became TSX Venture Exchange in 2002.

At the June 26, 1998 annual shareholders meeting a stock split of three new shares for one old share was approved. This split applied to all shares, options, and warrants outstanding as at November 30, 1998.

The Corporation has entered into a Directors and Management Stock Option Agreement on August 17, 1998. This agreement granted to the officers and directors an option to purchase 750,000 (250,000 prior to 3:1 split) shares at a price of \$0.0667 (0.20 prior to 3:1 split) per share. A total of 571,000 options were exercised in 1999 and 2000. The remaining 179,000 options will expire August, 2003.

On December 28, 2000 the company entered into a Stock Option Agreement with its directors. This agreement, subject to the company's Stock Option Plan, granted to two directors an irrevocable option to purchase common shares in their capacity as directors and officers of the company. Each optionee may purchase 762,300 common shares at \$0.10 per share. The option expires on December 28, 2005. During the interim period ended May 31, 2002, the company issued 1,524,600 common shares for \$152,460 to the two directors.

The options, which expire on August 17, 2003, were still outstanding on May 31, 2002.

Options to purchase 1,524,600 shares at \$0.10/share pursuant to the December 28, 2000 Stock Option Agreement were outstanding from December 1, 2001 to April 30, 2002 but were not included in the computation of diluted loss per share because the option's exercise price was greater than the average market price of the common shares.
